October 16 2018, in Geneva

The end of a Swiss specificity

The end of a Swiss specificity

November 2011: On strike

The end of a Swiss specificity

November 2011: On strike, but watch how smiling they are (another new specificity?)

Build a bridge: Geneva in 1986

We have a project !!!!

Build a bridge: Geneva in 1986

Build a bridge: Genoa in 2018

Build a tunnel !

Build a tunnel !

Find a Swiss compromise

Find a Swiss compromise

How does this relate to clinical metagenomics ?

Bridge knowledge

from various disciplines to implementation

How does this relate to clinical metagenomics ?

Bridge knowledge

from various disciplines to implementation

Continue being ambitious and visionary

- Other microbiota of clinical interest (vaginal,)
- From technical to ethical aspects

How does this relate to clinical metagenomics ?

Bridge knowledge

from various disciplines to implementation

Continue being ambitious and visionary

- Other microbiota of clinical interest (vaginal,)
- From technical to ethical aspects

Yet, remember possible Swiss compromises!

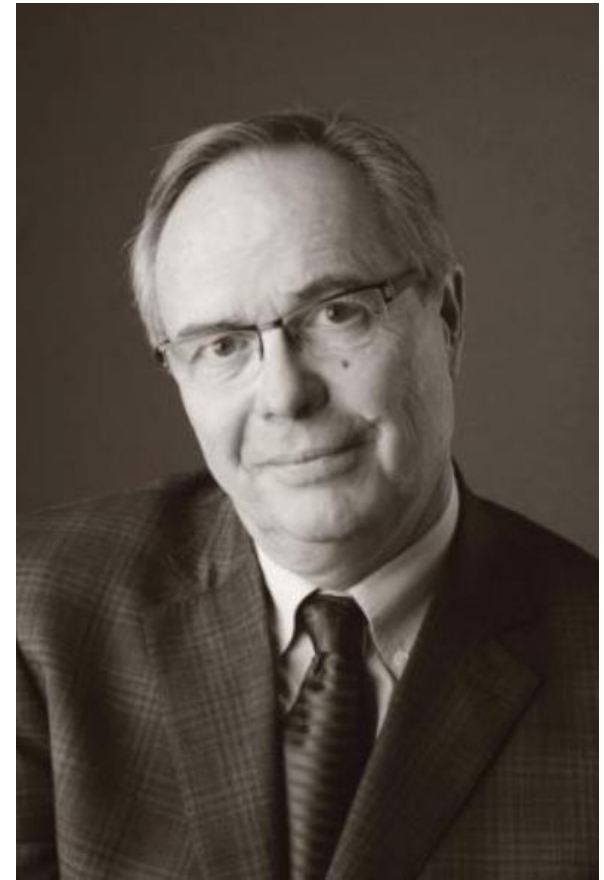

e.g. reimbursement issues...

Warmest thanks to

Warmest thanks to

Etienne Ruppé

Enrico Zuffi

FEMS is

- a network of 51 microbiological societies
- bringing together around 30,000 microbiologists
- publishing five journals on microbiology research
- stimulating global dissemination of microbiological knowledge
- investing in science: journal revenues sponsor more than 300 early career researchers every year

International Conference on Clinical Metagenomics

SAVE THE DATE! **ICCMg4**
